

RAGHDAN

ABDULHAMEED BAKHSH

ARCHITECTURAL PROJECT ENGINEER | CAPM

Project Coordination | Design Delivery | BOQ & Cost Review | Site Execution

P PROFESSIONAL SUMMARY

Architectural Project Engineer and CAPM-certified professional with 3+ years of experience across industrial facilities, workplace upgrades, holy-site environments, commercial activations and private developments. Strong in design coordination, BOQ and quotation review, procurement support, site follow-up and stakeholder alignment. Converts operational requirements into practical, execution-ready scopes that balance quality, cost and schedule.

E PROFESSIONAL EXPERIENCE

Project Engineer

Feb 2025 - Present

National Biscuit & Confectionery Company (NBCC)

Jeddah, Saudi Arabia

- Coordinate industrial and administrative facility upgrades from concept, scope definition and BOQ review through procurement support and site execution.
- Review drawings, technical proposals, quotations and material submittals; align consultants, contractors and internal stakeholders.
- Key exposure: HQ renovation, Plant 2 development, women's section and clinic, warehouse cooling and loading/transfer facilities.

Engineer Supervisor - Design Department

Seasonal Contract | 2026

Kidana Development Company

Makkah, Saudi Arabia

- Prepared and reviewed proposals for Mina, Muzdalifah and Arafat, including facades, walls, routes, gateways and seasonal operational spaces.
- Contributed to office development in Mina and Muzdalifah, balancing identity, buildability, cost and fast-track delivery.

Architect & Design Consultant

2024 - 2025

Salah Al-Zughaybi Group

Saudi Arabia

- Developed architectural concepts, 3D visualizations and presentation packages for private, executive and commercial projects.
- Coordinated design revisions and client requirements; contributed to Prince Abdullah Palace and executive-space development.

SELECTED PROJECTS

DESIGN, COORDINATION & DELIVERY PORTFOLIO

A focused selection of projects that best represent architectural project engineering capability.

01

NBCC HQ Admin Building Renovation NBCC | Jeddah

Phased workplace renovation covering layouts, finishes, BOQ review, contractor coordination and execution follow-up.

02

Plant 2 Factory Development NBCC / MODON

Architectural coordination for an industrial food facility, including planning, compliance and support-area development.

03

Women's Section & Clinic NBCC | Jeddah

Space planning, scope development and coordination of partitions, finishes, HVAC, lighting, power and fire requirements.

04

Makkah Warehouse Cooling Upgrade NBCC | Makkah

Technical coordination and vendor evaluation for an operational cooling solution targeting safe product-storage conditions.

05

Kidana Office Development Mina & Muzdalifah

Office layouts, interiors, identity elements and buildable proposals for fast-track seasonal operations.

06

Holy Sites Identity & Circulation Kidana | Makkah Region

Concepts for facades, retaining walls, routes, gateways, wayfinding and tent-corridor environments.

07

Prince Abdullah Palace Salah Al-Zughaybi Group

Architectural and executive-interior design development supported by visualization, presentation and client coordination.

08

Jeddah Promenade Activation Gowa / SELA

Seasonal activation concept including gateways, sponsor zones, kiosks, routes, hospitality areas and sponsor presentation content.

V

PROFESSIONAL VALUE

Design to Delivery

Connects concept intent with technical coordination, scope clarity and practical implementation.

Commercial Awareness

Reviews BOQs, quotations and alternatives to support cost-conscious project decisions.

Cross-Functional Coordination

Works across projects, procurement, operations, HSE, contractors and consultants.

Presentation & Communication

Transforms complex requirements into clear drawings, visual material and decision-ready packages.
